

## Christina M. Rudin-Brown, Ph.D., CCPE

Over 24 years' experience in human factors research, investigation, and policy analysis, including: human-machine interface (HMI) design and evaluation; driver / operator behaviour, distraction and impairment; operator trust in and use of automation; occupant protection; product warnings and messaging; automated vehicles and advanced driver assistance systems (ADAS); driver and motorcycle rider licensing schemes; heavy vehicle driver fatigue and speeding; alcohol and drug testing; accident analysis; and road-rail level crossing safety.

### EXPERIENCE:

2012-present **Human Factors Specialist**, Human Factors North, Inc., Ottawa, Canada

Applies human factors research methods on behalf of many varied industry and legal clients, including:

- **MDA Ltd.** (2021 – present) – user-centred human-machine interface (HMI) design and evaluation.
- **Ryan & Lynch Law** (2022) – expert opinion on motor vehicle accident involving nighttime lead vehicle visibility and conspicuity, and driver behaviour.
- **Burn Tucker Lachaine LLP** (2020) – expert opinion on motor vehicle accident involving driver aggression (“road rage”) and response to stress.
- **Lerners LLP** (2019) – expert opinion on the conspicuity and effectiveness of the waiver process in place at the time of a trampoline accident.
- **Transport Canada** (2017) – assessment of automated vehicle driver interface design and development of a human factors test method.
- **Transport Canada** (2015) – user-centred design and evaluation of child restraint system (CRS) instructional labels.
- **Intact Insurance** (2014) – expert opinion on motor vehicle accident involving vehicle path intrusion, sightline limitations, and poor intersection design.
- **NZ Transport Agency** (2013-2014) – evaluation and comparison of driver attitudes towards speeding, and the effects on time and fuel consumption.
- **Canadian Nuclear Safety Commission (CNSC)** (2012-2013) – review of criteria for assessing shift schedules in the nuclear industry.

2012-present **Manager and Senior Human Factors Investigator**, Transportation Safety Board, Gatineau, Canada.

Investigates the human factors aspects of air, marine, rail and pipeline transportation occurrences to identify safety deficiencies, develop options, prepare reports, studies and safety communications for investigators and clients.

2009-2012 **Senior Research Fellow**, Human Factors Team, Monash University Accident Research Centre (MUARC), Melbourne, Australia.

Conducted and led high quality research in human factors in transportation, most frequently in road, rail and aviation modes. Established and maintained a strong program of scientific research.

1999-2009 **Human Factors Specialist**, Road Safety and Motor Vehicle Regulation Directorate, Transport Canada, Ottawa, Canada.

Planned, managed, coordinated, and conducted multi-disciplinary research studies on the human factors and ergonomics of road and vehicle safety to support the development of national regulations, standards, collision countermeasures, and policy.

1992-1998 **Researcher**, Department of Psychology, University of Toronto; and Section of Biopsychology, Clarke Institute of Psychiatry, Toronto

1989-1991 **Research Assistant**, University of Ottawa (part-time)

### **EDUCATION:**

1993-1998 **Doctor of Philosophy, Experimental Psychology**; University of Toronto.

1992-1993 **Master of Arts, Experimental Psychology**, University of Toronto.

1988-1992 **Bachelor of Arts (Honours), Psychology**, University of Ottawa.

1985-1987 **Diploma in Legal Assistant Program**, Algonquin College, Ottawa.

**LANGUAGES:** Bilingual (French/English). Also some Spanish.

### **SCHOLARSHIPS and AWARDS:**

2019 **Distinguished Team Award**, Transportation Safety Board (TSB)

2016 **Excellence in Investigations Award**, TSB.

2015 **Excellence in Investigations Award**, TSB.

2012 **Canadian Certified Professional in Ergonomics (CCPE)** designation. Conferred by the Canadian College of Certified Professionals in Ergonomics.

2011 **Institute for Engineering Technology (IET) Premium Award for Intelligent Transport Systems (ITS)**, for the best paper published in 2009-2010 “Intelligent” in-vehicle ITS: Limiting behavioural adaptation through adaptive design. IET Intelligent Transport Systems, 4(4), 252-261 (2010).

2000, 2005 **Director General’s Service Award**, Transport Canada

1999 **Doctoral Thesis Award**, Ontario Psychological Association.

1996, 1997 **Ontario Graduate Scholarship**, Government of Ontario

1994, 1995 **Pre-Doctoral Scholarship (PSB-2)**, Natural Sciences and Engineering Research Council (NSERC)

1993 **Life Sciences Committee summer stipend**, University of Toronto

1992, 1993 **Open Fellowship**, University of Toronto

1990 **Summer Scholarship**, NSERC

### **SUPERVISION:**

- ◆ **Linda Pipkorn (Chalmers University) External reviewer** – PhD: ‘The driver response process in assisted and automated driving’ (2022);
- ◆ **Eryn Grant (University of the Sunshine Coast, Centre for Human Factors and Sociotechnical Systems) External reviewer** – PhD: ‘Toward a unified set of accident causation tenets: Identification, application and implications’ (2019);

- ◆ **Jonny Kuo (Monash University)** - PhD in Injury Research: ‘Effects of Child Occupant Behaviour on Driver Distraction and Performance’ (2013 – 2017);
- ◆ **Genevieve Hughes (Monash University)** – B.A.(Hons) Psychology: ‘A simulator study of the effects of singing on driving performance’ (2011);
- ◆ **Maria McGrath (Monash University)** - M.A. Organizational Psychology: ‘Attitudes, knowledge and perceptions towards drug and alcohol management programs and random testing within the Australian civil aviation community’ (2010);
- ◆ **Amy Allen (Monash University)** – B.A. (Hons) Psychology: ‘Investigation of zero BAC for motorcycle riders in Queensland’ (2010);
- ◆ **Tara McCurdie (University of Guelph)** – B.Sc. Engineering (co-op placement, Transport Canada): ‘Don’t drive high! The effect of seated driver eye height on speed perception’ (2004);
- ◆ **Alice Malisia (University of Guelph)** – B.Sc. Systems Engineering (co-op placement, Transport Canada): ‘Behavioural adaptation to adaptive cruise control (ACC)’ (2002).

### **PROFESSIONAL and ACADEMIC AFFILIATIONS:**

- ◆ Board member 2014 to 2018 – Canadian College for the Certification of Professional Ergonomists (CCCPE)
- ◆ Child Safety in Cars: An International Collaboration – Australian Research Council (ARC) 2012 to 2017
- ◆ Transportation Research Board (TRB) committee member (AND10 – Vehicle User Characteristics; AHB60 – Highway/Rail Grade Crossings)
- ◆ International Organisation for Standardisation (ISO) (pre-2009): Expert Member of ISO TC204 WG14 (Intelligent Transportation Systems)
- ◆ Association of Canadian Ergonomists (ACE)
- ◆ International Ergonomics Association (IEA)
- ◆ Human Factors and Ergonomics Society (HFES)
- ◆ Canadian Association of Road Safety Professionals (CARSP)
- ◆ Society of Automotive Engineers (SAE): Child restraint systems (CRS) committee (pre-2009)
- ◆ Eastern Ontario Traffic Investigators’ Society
- ◆ Manuscript reviewer for many international peer-reviewed publications

## **PEER-REVIEWED PUBLICATIONS:**
